

Maple, Beech and Cameron Area Lakes Association

Going Forward With A Renewed Focus

Wow, if you like heat 2018 was just an incredible summer. Hope you enjoyed it.

It is important that the executive of MBC stays in touch with the membership to let you know where our energies are focused. The executive met, although the elections had not been finalized, in July shortly after the AGM to develop an action plan. The decision was made to form a number of committees that would be chaired by an individual director supported by other directors and volunteers. Those groups are as follows:

Membership – Charlie O'Connor, Vice President, Heather Carroll, Director

Social – Phil Carroll, Heather Carroll, Directors and Charlie O'Connor

Communications – Bill Missen, Director, Kim Lockhart and Chris Lacasse Volunteers (These folks have done an incredible job already updating our social media)

Environmental – Murray Adam, President

MBC Constitution Update – Andy Muirhead, Past President, Bill Missen

We believe all these groups are integrated and as such have developed a communication system between them. Helen Missen, Financial Director is working on updating the procedures for looking after your funds. Sally Howson, Secretary our great note taker keeps things organized. Sally has again taken on the responsibility for the Annual Food Bank Drive on Thanksgiving weekend. Food Drive updates in the next week or so.

Andrew Schlotter, Tom Fitzsimmons and Deborah Lloyd, Directors support the above groups.

Please keep an eye on the MBC web site, let your neighbours know what is going on. Better still get them to join MBC. We will have news from all the committees that hopefully will get you excited and involved in MBC.

Murray Adam

President
